

Harmony XB4/XB5 become wireless: Remote control and monitoring made simple

New Harmony ZBRT wireless and battery-less interface

Unleash the full potential of wireless

From push-buttons to selector switches, the new ZBRT* is fully compatible across Harmony™ XB4/XB5 offers.

Easily monitor your equipment

By adding this interface on top of existing contacts, you can now easily monitor actions and localize actuated emergency stops. Collect your data using our Harmony Hub ZBRN.

Enjoy the harmony and peace of mind

Thanks to self-powered technology and best-in-class reliability, durability, and certifications.
