General presentation

Signaling units Sound units Harmony type XVS Multi sound sirens and alarms

Harmony[®] XVS editable sound offer

The Harmony XVS range of multi sound sirens, multi sound alarms, and editable alarms are commonly used audible signaling products for a wide range of applications. These audible units come with a combination of innovative features, high performance and simplicity.

- Available in various sound levels to suit for different industrial applications (106dB, 105dB, 90dB, 96dB, 97dB, and 89dB at 1m/3.28 ft.)
- Used for long distance indication of the operating status or sequences of a machine or installation

Editable sound offer

Customized voice message

- > A free of charge configuration software allows to customize the audible signals via SD card
- Improved efficiency to set up by easily allowing to edit the voice message and change the modes on site
- > Adjustable volume up to 97dB (for DIN 96) or 89dB (for DIN 72)

Configuration of audible signal via Playlist Builder software

General presentation (continued)

Signaling units

Sound units Harmony type XVS Multi sound sirens and alarms

Editable sound offer (continued)

Easy sound configuration

- > High level of alerting with customized voice message
- > Different types of audible sounds in single product makes it easy to use, simple to select and decreases the stock
- > Wide range of configuration with 6 input channels and up to 63 output tones

Easy sound kit selection and volume adjustment with use of simple tool

Compact and flexible

- > Easy installation with panel and wall mounting
- > Body thickness reduced to 24.9mm/0.98 in. (DIN 72) and 50.1mm/1.97 in. (DIN96)
- With binary and bit input options, 8 work operation modes are available for > various operations

Panel thickness reduced by 20% making the audible units compact

Robustness

- > IP 65 degree of protection (for panel mounting)
- > cUL, CE and UKCA certified and RoHS compliant

Designed in conformity with requirements of the **European RoHS** Directive 2011/65/EU

Industrial applications

Ideally suited for factory applications: AGV, packaging machine and non factory applications: packing, public transportation.

Factory

Presentation

The multi sound sirens and alarms in the Harmony XVS range are audible signaling units used for long distance indication of the operating status or sequences of a machine or installation.

XVSV editable voice alarms

The XVSV editable voice alarms are compact audible signaling units. Availability in dark Grey and White color makes them ideal for use in public areas and for factory applications. These units have wide range of configuration which allows selection of 6 voice channels, playing 63 messages with playback time of 256 sec (64 kb/s), to be mounted on wall or panels (protection: up to IP 65).

XVS10, XVS14, XVS72, XVS96 multi sound sirens and alarms

This range involves several types of ready to use products mainly used on conveyor belts, automated industrial trucks and on the doors of electrical control panels:

- sirens with 2 tones, with very compact size, type XVS10,
- multisound sirens (43 tones), pre-cabled, 8 channels, type XVS14,

■ electronic alarms, white or black color, 16 tones, 4 channels, type XVS72 and XVS96, to be mounted on panels (protection: IP 54).

The sound, with continuous or intermittent tone:

- guarantees a sound level of 106 dB at 1 m for XVS10,
- can be adjusted from 0 to 105 dB at 1 m for XVS14.
- can be adjusted from 0 to 90 dB at 1 m for XVS72,
- can be adjusted from 0 to 96 dB at 1 m for XVS96.

Environment

The XVS sirens and electronic alarms offer following characteristics:

- Degrees of protection:
- IP 65 for editable voice alarms type XVSV
- IP 53 for multi sound sirens type XVS10 and XVS14
- IP 54 for multi sound alarms type XVS72 and XVS96
- These products meet the requirements of the following standards:
- □ EN/IEC 61000-6-2 and EN/IEC 61000-6-3 for voltages 120 V and 230 V A.C. (XVS14BMW and XVS72)

□ EN/IEC 60947-1 and EN/IEC 60947-5-1 for voltages 12 V and 24 V A.C. (XVS10, XVS14GMW, XVS14MMW and XVS96).

- Product certifications:
- □ XVS10, XVS14, XVS72, and XVS96 are CE, UKCA, UL and CSA certified
- □ XVSV editable voice alarms are CE, UKCA and cUL certified

Connection

Products are to be connected:

- through cable-glands for using 6.5 mm/0.26 in. to 8.5 mm/0.33 in. cables (XVS10)
- through power wire c.s.a.: 0.52 mm²/AWG 20 and signal wire c.s.a.:
- 0.33 mm²/AWG 22, with flying leads, length 500 mm/19.6 in. (XVS14),
- through screw clamp terminals (XVS72 and XVS96).

For more technical information, please refer to our website www.schneider-electric.com.

Software configuration

The "Playlist Builder" software is used to configure the audible signals of XVSV voice units.

This software can be downloaded from www.schneider-electric.com for free of charge,

- It is compatible with Windows XP and Windows 7 (recommended) operating system,
- It allows configuration of audible signals to be set on 6 voice channels allowing to play 63 messages.
