

# Homeline Plug-on Neutral Load Centers with Qwik-Grip Wire Management System

## Square D Homeline Plug-on Neutral Load Centers with Qwik-Grip

Electrical contractors will appreciate not having to remove knockouts, install wire connectors and blindly pull wire into the load center versus the ability to slide wires from the front with the Qwik-Grip wire management system. A quick bend of the wire using the wire bend guide on the Qwik-Grip insert and the wire easily slides into the slot. Once done, snap on the Qwik-Grip shield to keep the wires behind the router for a secure, code compliant installation. Qwik-Grip, a state of the art wire management system, allowing you to move on the next job quicker.

## Features and benefits of Plug-on Neutral Load Centers with Qwik-Grip Wire Management System

Feature	Benefit
Qwik-Grip advantage	<ul style="list-style-type: none"> <li>• Simple, easy to use and speeds up installation time</li> <li>• Eliminates the need for most knock-outs and romex connectors, and feeds from the front making wire management easy to see</li> <li>• Retaining clip snaps in place for secure wire retention</li> </ul>

### Homeline Plug-on Neutral Load Centers with Qwik-Grip provides:

- Easy to use wire management system
- Simplifies NM-B wire installation
- Speeds up rough-ins
- Accommodate more wires than knockout end-walls
- Great for new construction, remodels or service upgrades
- UL Listed
